

# Direct Pay for Nonprofits

Tax exempt entities such as schools, local governments, and nonprofits can now receive up to 30% reimbursements from the federal government via the Inflation Reduction Act for eligible solar, geothermal, battery storage and electric fleet projects.

Did you know that tax-exempt entities are now eligible to receive reimbursements from the federal government for eligible solar, geothermal, battery storage, and electric fleet projects?

Projects can begin now even though reimbursement forms are not quite available yet. Learn more about Direct Pay on the website at [daneclimateaction.org/what-you-can-do/federal-funding-for-business](https://daneclimateaction.org/what-you-can-do/federal-funding-for-business) under Project Financing.
